# Arnab Poddar

B.Tech Information Technology Student, VIT Vellore

A tech enthusiast interested in learning and knowing about all the latest technologies and passionate about coding. I love building end to end software products which can solve some real life problem.

## EDUCATION

**B.Tech Information Technology**  
Vellore Institute Of Technology, Vellore

07/2019 - 07/2023

Relevant Courses(Till 3rd Sem)

- Data Structure and Algorithms, DBMS, Object Oriented Programming

**Computer Science**  
Delhi Public School, Ruby Park, Kolkata

04/2017 - 04/2019

## EXPERIENCE

**Samsung Prism Developer**  
Samsung, India

09/2020 - Present

Achievements/Tasks

- Built a web scraping application to scrap data about hundreds of Bluetooth devices to create one unified database about different Bluetooth devices available in the market for any user to query about any of them with ease.

## ORGANIZATIONS

IET-VIT (12/2019 - Present)

Co-ordinator Of VIT Technical United Conference

Toastmasters International (07/2020 - Present)

Core Committee Member

## PROJECTS

**BlogTown (06/2020 - 07/2020)**

- A full-stack blogging application where users can create, edit, and delete their blogs, which can be liked and commented on by other users. The application is also equipped with a search bar for finding blogs based on some keywords.
- Tech-Stack: Node.js, MongoDB, Materialize, Express.js.

**Ecommerce Platform (05/2020 - 08/2020)**

- Built an eCommerce platform to connect small business owners and service providers like electricians, plumber, and so on with their potential market online to give them a wide market reach in these times of economic downturn.
- Tech-Stack: Node.js, MongoDB, Bootstrap, Express.js.

**Meal Wagon (08/2020 - Present)**

- A web application that creates meal plans for the entire day and week based on the daily calorie requirements and the diet preferences of the user. The app also allows users to find meals based on the ingredients present at home.
- Tech- Stack: PHP, MySQL, Apache.

**Angel Camp (04/2020 - 05/2020)**

- A camping website for users to find and review nearby camping grounds. Users can also list their own area as a campground for other users to find.
- Tech-Stack: Node.js, MongoDB, Bootstrap, Express.js.
